

THE NEXT LEVEL.

BRABUS[®]

EXCLUSIVE TO **ZAGAME**
AUTOMOTIVE

BRABUS® are Germany's masters of more.

More performance. More style. More exclusivity. And more power.

Always, more power.

These vehicles are the result of Bodo Buschmann's obsession with power and performance, driving a BRABUS® legacy that began in Germany in the 1980's.

The signatures of that legacy are prodigious acceleration, aerodynamically focused bodywork, and the race-honed engineering that allows a driver to use it all.

And stop it all.

The utilitarian bodywork of the Mercedes G-Wagen is just part of its iconic appeal. But in the BRABUS® G700, the rugged design cloaks a very sharply-honed driver's machine.

Compromise? The only place you'll see that is in your rear-view mirror.
